SPRING FLOWERS HIKE

Most of the Spring flowers will be out and ready for pictures on Saturday, May 16th, from 4pm-6pm at Bald Mountain Recreation area. We will be hiking the Spring Creek loop that will take us on some rolling hillsides and then down to the lowest point in the park at Spring Creek. This variety of terrain will provide us with many of the Spring flowers that bloom in S.E. Michigan. The Trilliums should be covering the many hillsides.

If there is time and everyone is interested.....there are some natural Springs that feed Spring Creek that we can visit while we are at the park. These Springs are short Bush-whack hikes off the main trails, so wear some boots in case we decide to head off trail on occasion. Bald Mountain is a beautiful place with many different environments.

we will be meeting in the parking lot located on Greenshield road. Greenshield comes off of Lapeer road.(M24) north of I-75 and the Palace.

We will have some Wild Flower ID sheets for everyone as well as our Flower ID books along to assist in identifying some of the many flowers we will be seeing. The terrain is hilly and near the Creek can get a little "Gushy" as well. If you want to experience all the various wild flowers and maybe the natural Springs as well, then proper footwear is needed to do this.

*Hiking Boots are Suggested for this Hike. A good pair of treaded sole shoes are recommended. Bring along some Water for yourself. Insect Rellent. Bring an extra layer of clothing though.

BALD MOUNTAIN RECREATION AREA

DOG FRIENDLY

KID FRIENDLY

BOOTS SUGGESTED

Probably the easiest way to get to Bald Mountain Recreation Area is to go North on I-75, to the LAPEER Rd.(24) exit and head North. Approximately 5 miles north on Lapeer Rd., you will turn right (east) on Greenshield Rd. Travel east down Greenshield Rd. approx. 3/4 mile and look for the designated Parking area.
